

BMW Service and Maintenance Instructions

<s>[INST] Provide the service intervals for a BMW. [/INST]

1. Regular maintenance should be performed every 10,000 miles or once a year, whichever comes first.
2. Oil change is recommended at every service interval.
3. Brake fluid should be replaced every 2 years.

<s>[INST] What is the engine service procedure for a BMW? [/INST]

1. Engine oil capacity: Typically between 5 to 8 quarts, depending on the model.
2. Recommended oil: Fully synthetic 5W-30 or 0W-40, depending on climate conditions.
3. Spark plug replacement every 60,000 miles.
4. Timing belt/chain inspection every 100,000 miles.

<s>[INST] How should the transmission be serviced for a BMW? [/INST]

1. Check transmission fluid level at every major service interval.
2. Fluid replacement recommended every 60,000 miles.

<s>[INST] How should the brake system be repaired in a BMW? [/INST]

1. Inspect brake pads and rotors every 10,000 miles.
2. Replace brake pads if thickness is less than 3mm.
3. Bleed the brake system after any brake component replacement.
4. Ensure brake fluid is replaced every 2 years.
